**Yellow highlight** indicates assignments that were never received. They might have been misidentified as spam, or maybe they were never sent. All assignments must be received by one minute before midnight, Eastern Daylight Time, on Tuesday, March 22, 2016, in order to be counted in Q2 grades.

**When submitting additional homework,** be sure to use the correct subject line. Examples of subject lines to use can be found on the IPL webpage, under the calendar entries for 2/24 and 3/1.

[Scroll down to see examples.]

For checkFermat:   `__Source code for assignment due 20160216 [Smith, Jane]`
For checkTriple:   `__Source code for assignment due 20160218 [Smith, Jane]`
For multAdd:       `__Source code for assignment due 20160219 [Smith, Jane]`
For distance:      `__Source code for assignment due 20160222 [Smith, Jane]`
For dayOfWeek:     `__Source code for assignment due 20160301 [Group 9, Smith/Zimmerman]`

Obviously (it is obvious, isn't it?), you should replace the group number and names with the correct entries for yourself.

**Notes:**

1 Subject line formatted incorrectly (name in wrong order).
2 Subject line formatted incorrectly (name not enclosed in brackets).
3 Final version not submitted.
4 Subject line formatted incorrectly (no due date).
5 Subject line formatted incorrectly (no space after comma).
6 Final version not submitted; one version labeled as due 20160218 was actually checkFermat.
7 Subject line includes mention of requirements.
8 Subject line not formatted correctly (no name).
9 Subject line not formatted correctly (multiple issues affecting alphabetization).
10 Code does not compile.
